

J. safeguard e

Just makes sense to drive without worries.

FOR STRESS-FREE DRIVING

J. safeguard e 24 months/40,000 km

€1,640 (includes VAT)

Can be provided for used cars with a model year of seven (7) years or less from the admission date, on the condition that the vehicle in question has been driven less than 200,000 kilometres and has a cubic capacity of less than 3,200 cm³.

J. safeguard e 12 months/20,000 km

€1,040 (includes VAT)

Can be provided for used cars with a model year of nine (9) years or less from the admission date, on the condition that the vehicle in question has been driven less than 200,000 kilometres and has a cubic capacity of less than 3,200 cm³.

This is what J. safeguard e covers:

EQUIPMENT

(factory-installed only)

Audio components (excluding speakers/integrated GPS system), radio antenna, immobiliser system, cruise control switches and cruise control radar, air conditioning and heating dashboard control unit, instrument cluster, level control sensors and relief valves, level control compressor, adjustable seat motor and transmission, seat adjustment switches, opening roof start switch and motor, sunroof motor and switches (excluding sunroof rails and curtains), boot lid switch and motor, electric window switches and motor, fuel-operated auxiliary heater, electric window lift mechanism. Insulations and gaskets only if the above vehicle parts are replaced.

SAFETY EQUIPMENT

Airbags, crash sensors, airbag wires (excluding connectors/oxidation), steering column contact roller.

ENGINE

The following lubricated parts inside the engine: camshaft and bearings, connecting rods and bearings, crankshaft and main bearings, oil pump, push rods and lifters, pistons, piston rings and pins, rocker arms and bearing sleeves, valve springs, guides and seats (excluding guide gaskets), exhaust manifold, oil pipes, oil sump, timing belt/chain, sprocket and tensioner. Covers, housings, engine blocks, and cylinder heads are only included in the safeguard programme if they are damaged due to an internally lubricated part breaking. Insulations and gaskets only if the above vehicle parts are replaced.

GEARING

Automatic, manual or transfer gearbox: all internal lubricated parts within the transmission (excluding clutch), cooling pipes (metal), fasteners, torque converter, flywheel, oil sump. Gear or transfer gearbox, insulations, gaskets and oil only if the transmission is dismantled due to an above part breaking.

TRANSMISSION

All lubricated parts within the final drive, axles and differential joints, rubber covers, drive shaft support, differential gear housing, front hub traction locks, drive shaft, universal joints. Insulations and gaskets only if the above vehicle parts are replaced.

TURBO

Supercharger/turbocharger housing, internal lubricated parts, oil lines, fasteners. Insulations and gaskets only if the above vehicle parts are replaced.

AIR CONDITIONING

Compressor, magnetic clutch, pulley assembly, thermostatic expansion valve, compressor cut-off switch, pressure switch. Air conditioning pipes/hoses, coolant, insulations and gaskets only if the above vehicle parts are replaced.

BRAKES

Master cylinder, vacuum booster, load valve, brake hydraulic lines and fittings, ABS brake hydraulic and electronic control unit, brake booster, wheel speed sensors, ABS brake hydraulic pump/motor assembly, pressure converter valve. Insulations and gaskets only if the above vehicle parts are replaced.

COOLING SYSTEM

The following components in the internal-combustion engine cooling system: water pump, cooling fan motor, engine radiator cell, heater cell and motor, thermostat, coolant temperature sensor. Insulations and gaskets only if the above vehicle parts are replaced.

ELECTRICAL COMPONENTS

Alternator 12V, alternator release switch, auxiliary belt tensioner, crankshaft pulley, instrument cluster backlight switch, ignition coil, engine wiring harness, engine control unit, internal and external gearbox control unit, transmission control unit, exhaust gas recirculation valve (EGR valve), starter motor, the following electrical switches that are operated manually or mechanically: brake light switch, rear window heater switch, headlight switch, ignition switch, steering wheel lock, electric mirror switch and motor, indicator switch, washer pump switch, wiper switch, washer pump motor (excluding headlight washer) and wiper motor. Insulations and gaskets only if the above vehicle parts are replaced.

SENSORS

(engine control)

Oil pressure sensor, temperature sensor, camshaft position sensor, crankshaft position sensor, lambda sensor, NOx sensor, oil level sensor, air mass meter, intake manifold pressure sensor, gas pedal position sensor, boost pressure sensor, differential pressure sensor. Insulations and gaskets only if the above vehicle parts are replaced.

FUEL SYSTEM

Intake manifold, fuel pump, fuel distributor, pipes (metal), pressure regulator, fuel tank, fuel tank filler pipe, throttle body assembly, heater regulator, auxiliary vacuum pump and injection pump. Insulations and gaskets only if the above vehicle parts are replaced.

STEERING

All lubricated parts inside the steering gear and power steering pump, electric power steering, power steering hoses and connections, steering shaft, steering gear, steering wheel adjustment mechanism. Insulations and gaskets only if the above vehicle parts are replaced.

HYBRID/ELECTRICITY

Electric traction motor, electric traction motor speed governor, electric traction motor control unit and air-source heat pump compressor. Insulations and gaskets only if the above vehicle parts are replaced.

HIGH VOLTAGE

High voltage battery (not 12V battery), high voltage battery cooling system, internal high voltage charger (excluding external charger, excluding charging leads), DC-AC converter, DC-DC converter. Hoses, pipes, wires, insulations and gaskets only if the above vehicle parts are replaced.

J. safeguard e does not cover parts and items that are not mentioned above.

IN CASE OF A SUDDEN BREAKAGE OF THE VEHICLE, PLEASE DO THE FOLLOWING:

When you need your vehicle repaired due to breakage of a part or component included in the list of components being compensated by the safeguard programme, call the number listed below or present proof of your safeguard deal at the repair shop. The representative of the repair shop calls the customer service number and requests approval for the repair. Compensation applications are accepted over the phone so that your car is in working order as quickly as possible.

J. safeguard customer service
(weekdays 9.00–16.00)

+358 10 616 8080

J. SAFEGUARD E DOES NOT COVER THE FOLLOWING:

J. safeguard e's compensation limit max. €5,000

Conditions of the safeguard programme: FinnTakuu Oy.
The service is provided by FinnTakuu Oy.

- Scheduled maintenance, software updates and adjustments
- Springs and shock absorbers
- Wheel bearings
- Support arms
- Exhaust pipes, catalyst and particle filter
- Wiring harnesses
- Insulations and gaskets
- Clutch as a whole
- Rubber bushings
- Nozzle/pump nozzle
- Keys
- Parking aid
- Batteries
- Breakage or repair that occurs outside the borders of Finland
